

Drawing Amendment

In accordance with the Examiner's objections as stated on pages 2 and 3 of the above-identified Office action, and in order to comply with 37 CFR 1.121(d), Applicant herewith submits amended drawing figures 2 and 3 each on a drawing sheet labeled "Replacement Sheet". Specifically, figure 2 includes reference number 16 denoting the lift up or peel off lid, and figure 3 includes reference number 40 denoting a portion of the container 28 that can be peeled back or peeled away for allowing access to the feminine protection item 34 and the feminine wipe 36. Support for these elements is found in the specification on page 4, lines 18 – 20, and page 6, lines 4 – 6.

Remarks/Arguments

1. Claims 1 – 9 have been cancelled from the application.
2. Replacement Drawing sheets have been included to show elements 16 and 40 as requested by the Examiner and in accordance with 37 CFR 1.121(d). No new subject  
5 matter has been included. Thus the peel off lid 16 shown in figure 2 from the side elevational view is simply taken from the perspective view of figure 1 wherein the peel-off lid 16 as being partially peeled back to reveal the contents of the holding cavity 14.
3. New claims 10 and 11 have been added to the application to overcome the Examiner's rejections and to more particularly point out and distinctly claim the subject  
10 matter Applicant regards as her invention.
4. Specifically new claims 10 and 11 recite, in part, a cylindrical container having a portion that is peelable, or that can be peeled back, providing access to a feminine wipe and a feminine protection item. Neither cited references, the Steger et al. '448 and the Fisher '230, taken singly or in combination teach, suggest or disclose a container having  
15 an integral peelable portion for gaining access to items stored therein.
5. In view of the above, Applicant respectfully requests allowance of new claims 10 and 11 and passage of the case to full issuance. No new subject matter has been added to the application by this amendment, and this amendment has been prepared in a good faith effort to overcome the Examiner's objections as set forth in the Office action dated  
20 September 6, 2005.

Respectfully submitted,
